Sasha:

As I am sure you understand, I cannot answer all your follow-up questions, but I did the best I could.

Can you confirm that Dr. Kevin Kwak is currently employed part-time in CSUN's student health center?

Yes, Dr. Kwak is currently employed part-time in CSUN's student health center.

Is Dr. Kelly's administrative leave paid or unpaid?

Paid administrative leave of six hours a week.

We've obtained a copy of a settlement that was reached in August 2002 for Kelly to leave UCLA quietly after 23 years, which includes a clause that he was no longer allowed work at any UC institutions.

- Was CSUN aware of his settlement with UCLA or his relationship with the UC system?

As a policy, the university does not comment on the deliberative process involved with personnel matters.

The health and safety of our students is our top priority. We take the disturbing allegations by the former USC students, as well as any sexual assault, battery or harassment allegation against anyone at the university, seriously.

Out of an abundance of caution, while CSUN is investigating this matter, Dr. Kelly was placed on immediate administrative leave beginning Feb. 12, and this remains in effect.
